

MYNUL ISLAM

Software Engineering + Backend + APIs + JavaScript + NLP + Conversational AI interest

@ mynulakash436@gmail.com 01766715657 Sylhet,Bangladesh

in Mynul Islam Mynul436 Portfolio

PROJECTS

1.DHL Referral Program

April 2023–May 2024

- Customer loyalty enhancement through the Referral program. DHL Express Bangladesh will develop a web-based tool that helps to expand the scope of collecting new leads from the existing bucket of cash customers. My responsibility was to design the database schema and fully dedicate myself to the backend.
- Technology used for Backend:Laravel,My SQL
- Technology used for Frontend:HTML,CSS,Javacript

2.KroyBikroy Site

Github link

August 2022– November 2022

- An e-commerce site where user can sell or buy second hand product
- Technology used for Backend:ASP.NET WEB API(.NET6),MS SQL SERVER
- Technology used for Frontend:HTML,CSS,Angular14

THESIS

- **Bengali Song Emotion Classification** (B.Sc. thesis, team of 3, SUST, 2024): NLP research on identifying the core emotions in Bengali lyrics using machine learning and neural network classifiers.
- Built a verse-level dataset from scratch for a low-resource language: 325 songs, about 1,200 annotated verses, 5 emotion classes (Happy, Love, Sad, Depression, Life-oriented).
- Wrote an automated verse-segmentation script for two lyric formats and a preprocessing pipeline: tokenization, normalization, stop-word removal, and rule-based Bengali stemming.
- Trained and compared a CNN (PyTorch), a stacked BiLSTM (Keras), and a fine-tuned Bangla BERT with class weighting for imbalanced data. BERT performed best ($F1 \approx 0.66$ vs. 0.50 BiLSTM and 0.47 CNN).
- Technologies: Python, PyTorch, Keras, Hugging Face/BERT, NLP preprocessing.
- github link : Dataset

INTERESTS

Artificial Intelligence Natural Language Processing
Machine Learning Conversational AI

EDUCATION

B.Sc in Software Engineering
Shahjalal University of Science and Technology

Jan 2019 – 2024 Sylhet,Bangladesh

CGPA: 3.26

EXPERIENCE

6 months academic internship

LuminousLabs (01/02/2023 - 31/07/2023)

Jr.Software Engineer

LuminousLabs (01/02/2024 - 30-06-2024)

FAMILIAR WITH

JavaScript PHP C Sharp Python
Git Laravel jQuery SQL
RESTful API development
System Design

CERTIFICATES

- Udemy Online Course Certificate on Data Structures and Algorithms
Udemy Certificate Link
- Udemy Online Course Certificate on ASP.NET Core MVC(.NET 6)
Udemy Certificate Link

CO-CURRICULAR

- SUST Tech Fest (03/2019 - 05/2019)
As a volunteer
- SUST Technovent December-2022 as a team leader for floor management

ACHIEVEMENTS

- Secured **7th position among 500+ teams** at Code Samurai BD Hackathon 2022, organized by the University of Dhaka. GitHub: Frontend and Backend
- Participate in Therap JavaFest Hackathon organized by Therap (BD) Ltd
- Secured **11th position** at bdapps National Hackathon 2022 at Sylhet region
- Secured **270+ competition programming**
